Proof of Execution

Special Thanks to **Sponsors**

MoodleMoot Indonesia 2023 would not have been possible without the support of our dedicated sponsors and exhibitors.
Here are the companies that made significant contributions;

GreatNusa by BINUS Group

GreatNusa is an online learning platform providing education solutions for various segments, including corporate and educational institutions. At the event, GreatNusa shared their experiences in developing blended learning to support continuous education.

CDNetworks

CDNetworks is a global provider of cloud and Content Delivery Network (CDN) services, supporting the security and performance of digital applications. During the event, they showcased solutions for enhancing public application security and accelerating Moodle-based learning infrastructure.

Helios Informatika Nusantara

As Tencent Cloud's official partner in Indonesia, Helios Informatika Nusantara supports organizational digital transformation through efficient cloud technology and IT infrastructure solutions.

Tencent Cloud

Tencent Cloud is one of the world's largest cloud service providers, offering comprehensive solutions for digital infrastructure. At MoodleMoot, Tencent Cloud shared insights on how their technology supports scalable and secure learning systems for education and business sectors.

GreatNusa

Executive Summary

Driving Digital Learning Transformation

MoodleMoot Indonesia 2023, the first event of its kind in Indonesia, was successfully held on **October 2-3, 2023, at the Auditorium of Anggrek Campus, Bina Nusantara University, Jakarta**. Under the theme "**Digital Transformation: Building Learning Experience in a Changing World**", the event served as a strategic platform for collaboration and discussion, **attended by over 300 participants from the education, corporate, and government sectors**. The event aimed to explore digital transformation in learning and technological innovations to support modern education.

MoodleMoot Indonesia 2023 successfully provided a strategic platform to support the digital transformation of education and training in Indonesia. Through a combination of keynote sessions, panel discussions, technical workshops, and technology exhibitions, the event delivered in-depth insights into learning technology innovations and set a new standard for cross-sector collaboration in accelerating the adoption of educational technologies in Indonesia.

Executive Summary

Driving Digital Learning Transformation

Day 1
October 2,
2023
Education
Focus

The first day focused on the education sector, opening with a keynote by **Dr. Sri Suning Kusumawardani, S.T., M.T. (Kemdikbud RI)**, emphasizing the role of technology in advancing the Merdeka Belajar policy. Moodle HQ sessions featured **Max Espley**, who introduced Moodle partnerships, and **Marie Achour**, who outlined Moodle's product vision for empowering creativity, collaboration, and learning outcomes for life.

Panel discussions included experts from GreatNusa, ICE Institute, and other leaders who discussed strategies for optimizing distance learning (PJJ) and adopting blended learning approaches. Interactive workshops provided technical insights into topics such as upgrading to Moodle 4, creating interactive content with H5P, and leveraging mobile apps for device-based learning.

Executive Summary

Driving Digital Learning Transformation

The second day opened with a keynote speech by Harly Toindo (BINUS Group), highlighting the importance of digital transformation in corporate environments to foster learning behaviors through blended learning approaches. **Panel discussions featured speakers from CDNetworks and Tencent Cloud, addressing secure and scalable Moodle infrastructure solutions.** The discussions also focused on creating impactful learning experiences within corporate training environments.

Workshops on Day 2 included sessions on assessment and evaluation in Moodle, using gamification to enhance learner motivation, and leveraging Moodle for mobile-based learning. Participants gained valuable insights into how Moodle technology can drive efficiency and innovation in corporate training.

Event Highlights

MoodleMoot Indonesia 2023 showcased a series of activities designed to explore digital transformation in learning, with a strong focus on educational technology innovations. The two-day event began with an opening session on Day One, including a keynote speech by Dr. Sri Suning Kusumawardani, S.T., M.T. from the Ministry of Education and Culture (Kemdikbud RI), emphasizing the importance of digitalization in supporting the Merdeka Belajar policy. This was followed by sessions from Moodle HQ, such as Max Espley, who introduced Moodle partnerships, and Marie Achour, who outlined Moodle's product vision to empower creativity, collaboration, and long-term learning outcomes.

Day One also featured panel discussions on strategic topics, such as optimizing distance learning (PJJ), with speakers from GreatNusa and ICE Institute. Another panel explored secure and scalable Moodle infrastructure development with contributions from CDNetworks, Tencent Cloud, and Helios. Attendees participated in a variety of workshops, including an introduction to Moodle 4 features, creating interactive content with H5P, and gamification strategies to boost learner engagement.

Event Highlights

On Day Two, the event focused on the corporate and business sectors. The opening keynote by Harly Toindo from BINUS Group highlighted the importance of blended learning approaches to support digital transformation in the workplace. Panel discussions on the second day addressed cloud-based security solutions and large-scale Moodle technology implementation, led by key speakers from CDNetworks and Tencent Cloud. Workshops included topics such as learning evaluation, gamification, and leveraging Moodle mobile apps for device-based learning.

With over 400 registered participants, MoodleMoot Indonesia 2023 successfully delivered in-depth insights and interactive learning experiences, while serving as a vital platform for strategic collaboration between the education, corporate, and government sectors.

Keynote Highlights

Pannel Session

Creating Meaningful Learning Experiences in Corporations

This panel was presented by **Nita Felia and Simon Rudi from GreatNusa**. It explored how businesses can create meaningful learning experiences for their employees. The speakers shared case studies and strategies for implementing technology to support corporate learning environments.

How to Build Learning Behavior with a Blended Learning Approach

This panel featured **Ahmad Muslim S.Pd., M.P., Head of Education Planning and Development at the National Library of Indonesia, alongside Harly Toindo from BINUS Group**. The discussion focused on how blended learning approaches can foster positive and effective learning behaviors in both educational and corporate environments.

Ahmad Muslim highlighted the crucial role of blended learning in supporting digital transformation in education, sharing examples of successful implementations within national educational institutions. Meanwhile, Harly Toindo offered insights from the corporate sector, including how organizations can adopt learning technologies to enhance efficiency and productivity.

Keynote Highlights

Workshop Session

Moodle Technology Workshops

Upgrading to Moodle 4 Version

Led by **Andrian Hartanto** from **Moodle HQ**, this workshop covered technical steps to upgrade Moodle to version 4, including new features designed to improve user experience.

Moodle in the Containerization Era

Deo Kiatama from **Moodle HQ** explained how containerization enhances flexibility, efficiency, and security in Moodle deployment.

Assessment and Evaluation in Moodle

Facilitated by **Marisca Revani Putri** from **GreatNusa**, this session focused on how Moodle can be used to perform effective and in-depth learning evaluations. Participants gained insights into assessment techniques relevant to both education and corporate needs.

Gamification in Learning

Ronald Novembry from **GreatNusa** demonstrated how to use certificates, badges, and LevelUp! points to boost learner motivation.

Evaluation and Gamification Workshops

Interactive Learning Experience Workshops

Creating Interactive Content with H5P

Muhammad Izza from PCMan led this session on teaching participants how to design interactive learning content using H5P and enriching the learning experience.

Mobile and Cloud Solutions Workshops

Moodle Mobile Apps

Rizal Masandiansyah from PCMan presented the use of Moodle's Android/iOS apps to support device-based learning.

Sponsor Workshops

Cloud Infrastructure Solutions with Tencent Cloud

Alox Patris from Tencent Cloud discussed challenges in cloud infrastructure and solutions to support large-scale digital learning through Moodle.

CDNetworks: Enhancing Security Control for Public Applications

Benedictus Maretya Tri Prabandani conducted this session, explaining how CDNetworks can help organizations improve application security while accelerating Moodle system performance.

Workshop Session Keynote Highlights

Highlights from the Media

Warta Ekonomi .co.id

MoodleMoot Indonesia 2023, held for the first time at Bina Nusantara University, Jakarta, on October 2-3, 2023, was recognized as a significant step in fostering collaboration and innovation in digital education. Organized by PCMan Indonesia as a Moodle Partner in collaboration with GreatNusa by Bina Nusantara, the event was supported by technology partners like CDNetworks and Tencent Cloud.

The article highlights how the event became a vital platform for educators, technology professionals, and educational organizations to share insights, tackle digital transformation challenges, and discover solutions for more inclusive and efficient learning. One key message was delivered by Dr. Sri Suning Kusumawardani, S.T., M.T., Director of Learning and Student Affairs at the Ministry of Education, who stated that digitalization makes learning more effective without the constraints of distance and time.

Closing

MoodleMoot Indonesia 2023 marked a significant milestone in advancing digital education transformation in Indonesia. The event served not only as a platform for knowledge sharing but also as a space for collaboration among educators, technology practitioners, and business leaders to explore innovative solutions for the future of learning. Through inspiring keynotes, insightful panel discussions, and practical workshops, the event delivered actionable insights that support immediate implementation across sectors.

MoodleMoot Indonesia 2023 proved that digital transformation is about making learning more inclusive, personal, and meaningful, with technology as the driving force. Indonesia, where together we will build a brighter future for learning.

We extend our gratitude to the speakers, participants, sponsors, and everyone who contributed to the success of this event. MoodleMoot Indonesia is not just an event—it is a movement toward a better future for digital education. **See you at the next MoodleMoot Indonesia, where together we will build a brighter future for learning.**
